

EASO Teaching Courses

0830 - 1230	EASO COTF Teaching Course: Interventions in Childhood Obesity Chairs: J Baker (Denmark), JC Holm (Denmark)	Hall G
0830 - 0835	Welcome and introduction to the session	JL Baker (Denmark)
0845 - 0915	Medical assessment and early detection of complications	JC Holm (Denmark)
0915 - 0945	How to assess pre-diabetes and diabetes, and what are the current treatment recommendations	R Weiss (Israel)
0945 - 1015	Psychiatric / psychological aspects	J Hebebrand (Germany)
1015 - 1030	Coffee and Networking	
1030 - 1100	How to assess physical activity and set-up specific interventions	G O'Malley (Ireland)
1100 - 1130	How to assess nutrition and provide practical recommendations for the family	M Hassapidou
1130 - 1200	The importance of healthy hydration: how to set up and implement an intervention	M Luger (Austria)
1200 - 1215	Setting up a childhood obesity clinic: models, challenges and examples	N Farpour-Lambert
1215 - 1230	Where to go from here ?	Panel
0830 - 1230	EASO Obesity Management (OMTF) Teaching Course	Hall K1
	Session 1 Chairs: Luca Busetto (Italy), Hermann Toplak (Austria)	
0830 - 0850	Obesity as a disease	D Dicker (Israel)
0850 - 0910	Clinical evaluation of the patient with obesity	E van Rossum (Netherlands)
0910 - 0930	How to prepare the patient to change	J Halford (United Kingdom)
0930 - 0950	Medical nutrition therapy	K Schindler (Austria)
0950 - 1010	Evidence based physical activity prescriptions	M Holecki (Poland)
1010 - 1030	Open coffee and general discussion	
	Session 2 Chairs: D Dicker (Israel), D Leitner (Austria)	
1030 - 1050	Pharmacotherapy of obesity	H Toplak (Austria)
1050 - 1110	Indications to bariatric surgery and the surgical options	M Fried (Czech Republic)
1110 - 1130	Post-bariatric surgery follow up	L Busetto (Italy)
1130 - 1150	How to manage comorbidities	D Micic (Serbia)
1150 - 1210	How to manage weight re-gain	V Yumuk (Turkey)
1210 - 1230	Open coffee and general discussion	
0830 - 1230	EASO PHTF Teaching Course	Hall K2
0830 - 1230	International Teaching Workshop on Stigma	Hall 2.61 - 2.62
0830 hrs	Welcoming Remarks	
	Review Goals and Objectives	M Mehlmann (Sweden)
0840 hrs	Weight Bias Around the World	
	Weight Stigma Concepts and Perspectives from the EASO Patient Council Stigma Workgroup	C Fleetwood, EASO Patient Council (Sweden)
		V Mooney, EASO Patient Council (Ireland)
		T Kyle, OAC (USA)
		Arya Sharma, CON (Canada)
		X Ramos-Salas, CON (Canada)
	Patterns of Public Opinions about Obesity and People with Obesity in Different Countries	
0910 hrs	Consequences of Weight Stigma	
	Internalization of Weight Stigma: Patient Perspectives	C Fleetwood, EASO Patient Council (Sweden)
	Impact of Weight Stigma on Healthcare Access: Canadian Obesity Network Report Card on Access to Obesity Care	X Ramos-Salas, CON (Canada)
	Policy Implications of Weight Stigma in the USA	J Nadglowski, OAC (US)
0955 hrs	Obesity Science: Obesity as a Chronic Disease	
	Scientific and Clinical update: Redefining obesity beyond the Number of Scales	Arya Sharma, CON (Canada)
1030 hrs	Coffee Break	
1045 hrs	Reactions from the world to latest obesity and weight stigma science	
	Weight Stigma and Social Recovery: Patient Perspectives	D Matscheck (Sweden)
	Creating Bariatric Friendly Spaces and Places to Improve Health Outcomes	M Forhan, CON (Canada)
	Influencing Policy Change: Perspectives from the USA	J Nadglowski, OAC (US)
1130 hrs	Changing the Situation	
	Changing the Public Health Narrative about Obesity: Canadian Perspectives	X Ramos-Salas, CON (Canada)
	Building networks and support groups, historic perspective and today's challenge	C Fleetwood, EASO Patient Council (Sweden)
	Education to health professionals: New Resource Material (Leporello)	D Matscheck (Sweden)
	Education to the public: New Resource Material (Booklet)	D Durrer, EASO Patient Council
1215 hrs	Discussion	
1230 hrs	Adjournment	

Chairs:

1245 - 1300	Changes in visceral fat and cardio metabolic risk factors in trans persons during cross-sex hormonal therapy: results from a multicenter prospective study	M Klaver (Netherlands)
1300 - 1315	Anthropometric measurements and metabolic syndrome in relation to glucocorticoid receptor polymorphisms in (local) corticosteroid users	M Savas (Netherlands)
1315 - 1330	Compensatory responses to weight loss and long-term relapse: Is there a link?	S Nymo (Norway)
1330 - 1345	Predictors of fasting and postprandial appetite-related peptide response after supervised exercise	C Gibbons (UK)
1345 - 1400	Regular exercise, glucose metabolism and cognitive functions in elderly individuals	M Schon (Slovak Republic)
1400 - 1415	Utility of Transient Elastography for assessment of NAFLD in morbidly obese patients in a real life setting	M Eilenberg (Austria)
1245 - 1415	Oral Session: Nutritional aspects in childhood obesity	Hall G
Chairs:		
1245 - 1300	Cross-sectional associations between weight misperception and symptoms of anxiety/depression and life satisfaction in overweight/obese adolescent from two cohorts in Norway – The HUNT Study	K Kvaløy (Norway)
1300 - 1315	Energy Intake, appetite and food reward responses to High Intensity Interval Exercise might depend on the degree of obesity in adolescents.	D Thivel (France)
1315 - 1330	From upset to calm but overweight in 3 steps: is food to calm early on related to the development of overeating and overweight in the preschool years?	E Jansen (Australia)
1330 - 1345	Restrained Eating Mediates the Longitudinal Relationship Between Weight-based Teasing and Body Mass Index in a Community Sample of Canadian Youth: Findings from the REAL study	G S Goldfield (Canada)
1345 - 1400	An ad a day doesn't keep the pounds away	G Rosenberg (UK)
1400 - 1415	Does social media food marketing influence children's food intake and preferences?	A Coates (UK)
1245 - 1415	Joint Session with TOS: Integrating obesity research from across the globe	Hall K1
Chairs: TBC		
1245 - 1300	Urbanization in China in Relation to Obesity: Diet, Omics, and Cardiometabolic Disease	Penny Gordon-Larsen (US)
1300 - 1315	Fast food restaurants and obesity: guilty as charged or falsely accused	John Speakman (UK)
1315 - 1330	Weight Bias across the Globe	Ted Kyle (US)
1330 - 1345	Personalized dietary management of obesity based on simple biomarkers	Arne Astrup (Denmark)
1345 - 1400	Regulatory Efforts in Mexico & Chile: Impacts of Taxation on Obesity, Comparisons with Taxation Efforts in the US	Simon Barquera (Mexico)
1400 - 1415	Discussion	Panel
1245 - 1415	Oral Session: Energy Homeostasis	Hall K2
Chairs:		
1245 - 1300	Adaptive thermogenesis, leptin and gut hormones during dietary induced weight loss: impact on long-term weight loss maintenance	G Thom (UK)
1300 - 1315	Association of brown adipose tissue, skeletal muscle glucose uptake and supraclavicular skin temperature, with cold-induced thermogenesis and nutrient oxidation rates	G Sanchez-Delgado (Spain)
1315 - 1330	Relationship between White Matter Microstructure Patterns and Reward Sensitivity in Normal Weight and Overweight Chilean Young Adults	S Reyes (Chile)
1330 - 1345	Effect of a 4-week exercise programme in gut appetite hormones and faecal short-chain fatty acids in overweight women	E Rizou (UK)
1345 - 1400	Determination of underlying genetic variations in an obese cohort of more than 1000 patients and the effect of bariatric surgery.	M I Cooman (Netherlands)
1400 - 1415	The effect of exercise intensity on circulating hepatokine concentrations in healthy men.	S A Willis (UK)

1430 - 1600**Review Sessions**

1430 - 1600	Does the obesity paradox really exist?	Hall D
Chairs:		
1430 - 1500	Heart failure and transplantation	S von Haehling (Germany)
1500 - 1530	Obesity paradox in chronic renal failure and kidney transplantation : myth or reality?	V Teplan (Czech Republic)
1530 - 1600	Cancer survival	M Gunter (France)
1430 - 1600	Psychological mechanisms and successful interventions: 'what kind of eater are you?'	Hall G
Chairs:		
1430 - 1500	Emotion regulation and eating behavior: Is comfort food actually comforting for high emotional eaters	T van Strien (Netherlands)
1500 - 1530	The Psychology and Neuroscience of Obesity. From laboratory to treatment	A Roefs (Netherlands)
1530 - 1545	Physiological and Cognitive Responses Associated with Successful Weight Loss Maintenance: A Cross-Sectional Study	L J Balter (UK)
1545 - 1600	Stigma in the medical setting (does ICD stigmatise)?	D Durrer (Switzerland)

1430 - 1600	How to overcome stigma and discrimination Chairs:	Hall K1
1430 - 1500	Stigma in the medical setting (does ICD stigmatise)?	D Durrer (Switzerland)
1500 - 1530	Discrimination in education	A Hill (UK)
1530 - 1600	Discrimination in employment	S Bevan (UK)
1430 - 1600	The role of gut microbiota: from basic science to clinical practice Chairs:	Hall K2
1430 - 1500	Gut microbiome and obesity	T Hansen (Denmark)
1500 - 1530	The role of gut microbiota in obesity and mood: The MyNewGut project	Y Sanz (Spain)
1530 - 1600	How does bariatric surgery influence gut microbiota?	J Aron Wisnewsky (France)

1600 - 1630	Coffee Break/Commercial Exhibition
--------------------	---

1630 - 1800	Industry Supported Session
--------------------	-----------------------------------

Industry Supported Session: Further information is available via the ECO2018 website

Hall D

1800 - 1945	Plenary Session/Opening Ceremony
--------------------	---

1800 - 1900	Opening Plenary: Personalised versus person centred approaches Chairs: B Ludvik (Austria), H Toplak (Austria)	Hall D
1800 - 1830	Personalised approaches	H Orer (Turkey)
1830 - 1900	Person centred approaches	R Batterham (UK)
1900 - 1945	ECO2018 Opening Ceremony Chairs: B Ludvik (Austria), H Toplak (Austria)	Hall D
	EASO New Investigator Award Lectures	
	EASO NI Award in Basic Science	D P Andersson (Sweden)
	EASO NI Award in Childhood Obesity	J Aarestrup (Denmark)
	EASO NI Award in Clinical Research	S Gancheva (Germany)
	EASO NI Award in Public Health	S Larsen (Denmark)

1945 - 2115	ECO2018 Welcome Reception
--------------------	----------------------------------

Exhibition Hall

0830 - 0915 **Plenary Session**

Plenary Lecture: Is obesity a trigger for puberty?
Chairs: TBC

Hall D
K Ong (UK)

0930 - 1100 **Joint/Review/Teaching Sessions**

0930-1100 **Joint Session with IFSO-EC: How to build an effective and safe clinical pathway for bariatric surgery patients** **Hall D**
Chairs:
0930 - 0950 How to select and prepare a patient for surgery D Dicker (Israel)
0950 - 1010 How to improve the availability and the safety of bariatric procedures R Batterham (UK)
1010 - 1030 How to decide the type of bariatric/metabolic procedure in the individual cases R Peterli (Switzerland)
1030 - 1050 How to build an effective long-term follow-up L Busetto (Italy)
1050 - 1100 Discussion

0930-1100 **EASO/WHO Session: Food marketing in the digital age - immersive, influential, unstoppable?** **Hall G**
Chairs:
0930 - 0950 Food marketing and the obesogenic environment K Brownell (US)
0950 - 1010 What do we know about digital food marketing and its impact? E Boyland (UK)
1010 - 1030 WHO's role and priorities regarding food marketing J Breda (Portugal)
1030 - 1050 What's next for food marketing policy? T Lobstein (UK)
1050 - 1100 Discussion

0930-1100 **Individualised prescription of physical activity: prevention to treatment** **Hall K1**
Chairs:
0930 - 1000 Special age groups (adolescents). Integrating evidence based pedometry for adolescents into the Physical Activity on Prescription (PAP) model in Sweden A Raustorp (Denmark)
1000 - 1030 Individualized prescription of physical activity: prevention to treatment. Special age groups (aging population). B Ukropcova (Slovakia)
1030 - 1100 Physical activity and obesity in special patient groups J-M Oppert (France)

0930-1100 **Signals and messaging** **Hall K2**
Chairs:
0930 - 1000 Control of integrative physiology by the melanocortin circuitry H Fenselau (Germany)
1000 - 1030 Immunological characteristics in obesity: inflammation in fat as a trigger of metabolic complications M Haluzik (Czech Republic)
1030 - 1045 Brain leptin reduces liver lipid content by increasing hepatic triglyceride secretion and reducing de novo lipogenesis in male rats. T Scherer (Austria)
1045 - 1100 Butyrate restores HFD induced adaptations in brain function and metabolism in mid-adult obese mice I A Arnoldussen (Netherlands)

1100 - 1130 **Coffee Break/Commercial Exhibition**

1130 - 1300 **Oral Sessions/Symposia**

1130 - 1300 **Joint Session with IFSO-EC: How to tackle specific post-bariatric clinical problems** **Hall D**
Chairs:
1130 - 1150 Management of extreme obesities G Prager (Austria)
1150 - 1210 Pre and post-operative deficiencies: the reality B Ludvik (Austria)
1210 - 1230 Post bariatric hypoglycaemia: diagnosis and medical solutions A Pucci (UK)
1230 - 1250 Abdominal pain after bariatric surgery: prevalence, evaluation, management M Fried (Czech Republic)
1250 - 1300 Discussion

1130 - 13:00 **The WCRF/ AICR Third Expert Report on diet, nutrition, physical activity and cancer: Updated Recommendations, Underpinning Mechanisms and Policy Implications** **Hall G**
Chairs:
1130 - 1135 Introduction G Mitrou (UK)
1135 - 1155 The WCRF / AICR Third Expert Report and the Updated Cancer Prevention Recommendations M Leitzmann (Germany)
1155 - 1215 Obesity, Metabolic Dysfunction and Cancer: Molecular Epidemiologic Approaches M J Gunter (France)
1215 - 1235 Translating Research into Policy G Mitrou (UK)
1235 - 1300 Discussion Panel

Time	Thursday 24 May 2018
-------------	-----------------------------

1130 - 1300	Oral Session: Energy balance and activity Chairs:	Hall K1
1130 - 1145	Sleep efficiency and duration assessed with metabolic holter: Associate with anthropometric measurements and body composition	M S Karacil Emumcu (Turkey)
1145 - 1200	Effectiveness of a physical activity program on cardiovascular disease risk in adult with overweight and obesity: the "Pas-a-Pas" community intervention trial	F V Martinez (Spain)
1200 - 1215	Simple functional tests for screening sarcopenia in adult females with obesity	M El Ghoch (Italy)
1215 - 1230	Child physical activity levels and sedentary time are associated with body composition at 5 years of age: Findings from the ROLO Kids Study	A A Geraghty (Ireland)
1230-1245	Self-efficacy toward eating and physical activity – predictors for sustained weight loss and health related quality of life after vertical sleeve gastrectomy for severe obesity?	T N Flølo (Norway)
1245 - 1300	Dietary patterns modify the association between FTO genetic variations and changes in obesity phenotypes	F Hosseini-Esfahani (Iran)

1130 - 1300	Oral Session: Adipose tissue biology Chairs:	Hall K2
1130 - 1145	The hidden role of histone deacetylases inhibition during β -adrenergic receptor stimulated Ucp1 expression	A Yuliana (Japan)
1145 - 1200	Biophysical Characterization and Diagnosis of Obesity from Adipose Tissue by Fourier Transform Infrared (FTIR) Spectroscopy and Imaging	F Kucuk Baloglu (Turkey)
1200 - 1215	A distinct molecular signature of adipose tissue in constitutional thinness	N Gheldof (Switzerland)
1215 - 1230	FAM46A a new regulator of leptin secretion in adipocytes	J Hager (Switzerland)
1230-1245	Human brite adipogenesis: Generation and characterization of cell models	F Volat (France)
1245 - 1300	Vitamin D and adipose tissue insulin sensitivity in overweight and obese humans	A Pramono (Netherlands)

1300 - 1500	Lunch, Exhibition and Posters	Exhibition Hall
--------------------	--------------------------------------	------------------------

1315-1445	Posters Viewing and Lunch	Exhibition Hall
-----------	----------------------------------	------------------------

1315 - 1445	EASO Teaching Session
--------------------	------------------------------

1315 - 1445	Hands-On Workshop: Long-term patient empowerment Moderator: M Mehlmann (US)	Hall K1
	<p>Empowering patients is the way to go - yes? And yet still many of our patients 'relapse' into old habits after a while. Can the success rate be improved? How might a long-term empowering method differ from what you already do? The devil is in the details.</p> <p>In a two-hour workshop we examine the possibilities to fine-tune your work. The methodology is based on several decades of experience and action research in more than 20 countries, focused on starting and supporting a long-term process for self-driven cumulative behaviour change. We may also consider one or more theories of empowerment, including the different roles of 'nudging' and empowering.</p>	

1315 - 1445	Industry Supported Sessions
--------------------	------------------------------------

1315 - 1445	Industry Supported Sessions (max 2) Further information is available via the ECO2018 website	Please see website
-------------	---	---------------------------

1500 - 1545	Plenary Sessions
--------------------	-------------------------

1500 - 1545	T2 Plenary: Global food policy and obesity Chairs:	Hall D
1500 - 1545	T1 Plenary: Novel aspects in neuroendocrine and energy homeostasis regulation by peripheral signals acting through the CNS. Implications for obesity therapeutics Chairs:	Hall G

1545 - 1615	Coffee Break/Commercial Exhibition
--------------------	---

1615 - 1745	Review/EASO Sessions
--------------------	-----------------------------

1615 - 1745	Short and long term consequences of childhood obesity Chairs:	Hall D
1615 - 1645	Lifestyle factors, overweight/obesity and related disorders over the life-course of children – observations of the IDEFICS/ I.Family cohort	W Ahrens (Germany)
1645 - 1715	The development, causes, and consequences of childhood obesity: exploring heterogeneity using multiple birth cohorts	W Johnson (UK)
1715 - 1745	Future lifetime costs of childhood obesity and overweight	K Balanda (Ireland)
1615 - 1745	Food addiction: searching for the culprit Chairs:	Hall G
1615 - 1645	Anorexia nervosa and food addiction: opposite sides of the same coin?	J Hebebrand (Germany)
1645 - 1715	Addiction-like brain responses in obesity	P Smeets (Netherlands)
1715 - 1730	Evaluation of Food Addiction in Diabetic Individuals	O Kucukerdonmez (Turkey)
1730 - 1745	Obesity stigma: Is the food addiction label feeding the problem?	H K Ruddock (UK)
1615 - 1745	EASO Public Health Task Force: Where do we want to be in 2030? Chairs:	Hall K1
1615 - 1645	WHO goals for child health: what have we achieved?	J Breda (Denmark)
1645 - 1715	How to create a sustainable food system with affordable, accessible, and available health promoting food – a policy perspective.	K Schindler (Austria)
1715 - 1745	Socioeconomic gaps: what policy questions do we need to ask?	EASO PHTF
1615 - 1745	EASO NIU Scientific Session Chairs: NIU Board	Hall K2
	Senior Presentation: The wonder colours of body fat: a successful scientific path	S Cinti (Italy)
	EASO NIU Best Thesis Candidate 1	R Antoni (UK)
	EASO NIU Best Thesis Candidate 2	J Noble (UK)

1745 - 1915	Accepted Symposia and Chaired Poster Sessions
--------------------	--

1745 - 1915	Accepted Symposium: Obesity in children - science vs reality Chair: K Widhalm (Austria)	Hall K1
1745 - 1800	How can we improve our communication with overweight children and their parents?	I Lissau (Denmark)
1800 - 1815	Growth and body composition assessment: an intriguing duet	A Pietrobelli (Italy)
1815 - 1830	Understanding and preventing childhood obesity: The European experience	L Moreno (Spain)
1830 - 1900	Prevention of obesity by treating overweight	C-E Flodmark (Sweden)
1900 - 1915	The Viennese Obesity Prevention Project EDDY	K Widhalm (Austria)
1745 - 1915	Posters Networking Reception/EASO NIU Reception Poster Tracks TBC	Poster Exhibition

Large-scale regulatory changes focused on obesity prevention: Current state of knowledge in Europe and beyond **Hall D**
Chairs: TBC

0930-1100 **Accepted Symposium: Can we prevent childhood obesity through lifestyle interventions during pregnancy?** **Hall D**
Chairs: TBC

0930 - 0950 Results of the Healthy Living in Pregnancy (GeliS) trial H Hauner (Germany)
0950 - 1010 Lessons learned from PEACHES (Programming of Enhanced Adiposity Risk in Childhood – Early Screening) R Ensenauer (Germany)

1010 - 1030 Lifestyle intervention in obese pregnant women – long-term results of the UPBEAT trial L Poston (UK)
1030 - 1050 Results of the iWIP consortium: Perinatal factors promoting childhood obesity S Thangaratinam (UK)
1050 - 1100 Discussion

0930-1100 **EASO Nutrition Working Group/EFAD: Evidence and Efficacy** **Hall G**
Chairs: TBC

1) Lifestyle Interventions

0930-0940: Research update: what is the story in personalised nutrition E Blaak (Netherlands)
0940-0950: Is there a practice-based future for personalised nutrition E Govers (Netherlands)
0950-1000: Weight loss as part of a healthy lifestyle T Handjieva-Darlenska (Bulgaria)

1000-1010: Management of obesity related conditions through weight loss S Polovina (Serbia)
1010-1030: Real world video presentations and interactive audience discussion on diet health literacy S Sigurdardottir (Iceland)

2) European dietary recommendations.

1030-1045; Gaps and future steps M Hassapidou (Greece)
1045-1100: Discussion

0930 - 1100 **Oral Session: Epidemeology and lifestyle** **Hall K1**
Chairs: TBC

0930 - 0945 The LiveLighter healthy weight and lifestyle campaign: Evaluation and policy advocacy J Martin (Australia)
0945 - 1000 Plant-based diet and longitudinal adiposity: the Rotterdam Study Z Chen (Netherlands)
1000 - 1015 Roadmap towards a pan-European surveillance of obesity, obesity-related lifestyle behaviours and their determinants in infants, children and adolescents A Hebestreit (Germany)

1015 - 1030 Trends in the prevalence of childhood obesity and morbid obesity in the Republic of Ireland – The Childhood Obesity Surveillance Initiative in 2008, 2010, 2012 and 2015 S Bel-Serrat (Ireland)

1030 - 1045 No evidence for a causal association between liver fat and (sub)clinical disease outcomes, including insulin resistance, type 2 diabetes, and coronary artery disease R A J Smit (Netherlands)

1045 - 1100 The Impact of Body Mass Index on Mortality after Infection: Cohort study of 18,167 patients hospitalized in Denmark S B Gribsholt (Denmark)

0930 - 1100 **Oral Session: Bariatric surgery** **Hall K2**
Chairs: TBC

0930 - 0945 Genetic susceptibility helps to predict type 2 diabetes remission after bariatric surgery A Lecube (Spain)
0945 - 1000 Genetic determinants of weight loss after bariatric surgery M Aasbrenn (Norway)
1000 - 1015 Effect of Calcium citrate versus Calcium carbonate on elevated PTH following Roux-en-Y gastric bypass. A Double-blinded Randomized Study. L R Madsen (Denmark)

1015 - 1030 Changes in bone mineral density due to omega-loop gastric bypass induced weight loss in patients with vitamin D supplementation over 12 months M Luger (Austria)

1030 - 1045 Do elderly obese patients benefit less from bariatric surgery? Lessons from morbidity and mortality rates: The Israeli Bariatric Surgery Registry. D Dicker (Israel)

1045 - 1100 Bariatric surgery reduces malignant melanoma incidence in the Swedish Obese Subjects study. M Taube (Sweden)

1130 - 1300 **Accepted Symposium: Assessing body composition for better understanding of risks related to childhood obesity and designing effective interventions** **Hall D**
Chairs: C Loechl (Austria)

1130 - 1150 IAEA work in nutrition: Body composition as a tool to monitor overweight and obesity and the role of nuclear techniques. V Owino (Austria)

1150 - 1210 World Health Organization -European Regional Office J Breda (Portugal)
1210 - 1230 How do parents identify childhood obesity and can we help them to correctly categorise their child's weight status? A Jones (United Kingdom)

1230 - 1250 Applying Nuclear Techniques to Design and Evaluate Interventions to Prevent and Control Obesity in Adolescents in Latvia I Sikсна (Latvia)

1250 - 1300 Applying Nuclear Techniques to Design and Evaluate Interventions to Prevent and Control Obesity in Adolescents in Bosnia and Herzegovina A Hadziomeragic and V Grujic (Bosnia and Herzegovina)

1130 - 1300	Oral Session: New directions in obesity management Chairs: TBC	Hall G
1130 - 1145	A Randomised, Phase 2, Placebo- and Active-Controlled Dose-Ranging Study of Semaglutide For Treatment of Obesity in Subjects Without Diabetes	J Wilding (UK)
1145 - 1200	Weight Loss and Alteration in Dietary Preferences in Humans Due To Reduction of Smell By A Novel Nasal Device Varies With Age	D Dicker (Israel)
1200 - 1215	Virtual Follow-Up (FU) program enhances weight-loss results post Elipse balloon: An innovative, digital patient-friendly approach.	R Ienca (Italy)
1215 - 1230	Prevotella-to-Bacteroides ratio predicts body weight and fat loss success on 24-week diets varying in macronutrient composition and dietary fiber.	M F Hjorth (Denmark)
1230 - 1245	Enrichment of health-associated gut bacteria after a short-term dietary intervention in elderly obese subjects	R Canello (Italy)
1245 - 1300	Early achievement of significant weight loss with naltrexone/bupropion is associated with additional weight loss and improved glycemic control at 1 year in patients with type 2 diabetes	L Acevedo (US)
1130 - 1300	Oral Session: Psychological determinants and outcomes Chairs: TBC	Hall K1
1130 - 1145	Predictors of weight loss maintenance after clinically significant weight loss: a 12-month longitudinal study	E H Evans (UK)
1145 - 1200	The relationship between dietary restraint and weight trajectories in successful weight-loss maintainers	M De Zwaan (Germany)
1200 - 1215	Impact of bariatric surgery on relationship status: Results from two Swedish cohort studies	P Svensson (Sweden)
1215 - 1230	Perception of self and body image impacts vulnerability to type 2 diabetes	M Bagger (Denmark)
1230 - 1245	Pre- and postbariatric subtypes and their predictive value for long-term surgery outcomes	L Schäfer (Germany)
1245 - 1300	Self-regulation and eating behaviour traits in preschool children	L Afonso (Portugal)
1130 - 1300	Oral Session: Nutrition and the food environment Chairs: TBC	Hall K2
1130 - 1145	How sugary beverages are positioned as better-for-you through their labels	A Brownbill (Australia)
1145 - 1200	An assessment of the legal compliance and consumer understanding of nutrition and health claims used on commercially available 'meal replacement for weight control' products	K L Johnston (UK)
1200 - 1215	Reduction of added sugar intake through a nutrition education program in Viennese school children	E Winzer (Austria)
1215 - 1230	Healthier diets for families with toddlers: a cluster randomized pilot trial in Finnish child health clinics	S Lehtinen-Jacks (Finland)
1230 - 1245	Real World Data On The Reversibility Of Beta Cell Function In Uncontrolled Type Two Diabetic Patients Multi Daily Injections of insulin,At Glycemia Clinic In Kuwait For A Better Glycemic Control.	A Shaghoul (Kuwait)
1245 - 1300	The effect of sugar-sweetened beverage front-of-pack labels on drink selection, health knowledge and awareness: An online Randomised Controlled Trial	A Peeters (Australia)
1315 - 1445 EASO Teaching Session		
1315 - 1445	EASO Teaching Session: Statistical modelling of child growth for non-statisticians Chairs: TBC Content TBC	Hall K1
1315 - 1445 Industry Supported Sessions		
1315 - 1445	Industry Supported Sessions (max 2) Further information is available via the ECO2018 website	Please see website
1500 - 1545 Plenary Session		
1500 - 1545	Early life mechanisms in the development of obesity Chairs:	Hall D
1545 - 1615 Coffee Break/Commercial Exhibition		
1615 - 1745 Review/EASO Sessions and Accepted Symposia		
1615 - 1745	Accepted Symposium: Understanding human appetite control - are we making progress? Chair: J Blundell (UK)	Hall D
1615 - 1635	Drive and Inhibition in an Appetite Control System – an update.	J Blundell (UK)
1635 - 1655	Cell walls as barriers to lipid bioaccessibility in plants – implications for satiety	M Grundy (UK)
1655 - 1715	Omic sciences in the assessment of appetite or satiety control	M Bullo Bonet (Spain)
1715 - 1735	Is research on Appetite Control relevant? – have we got it right?	R Mattes (US)
1735 - 1745	Discussion	
1615 - 1745	JANPA Skills Building Workshop Moderator: M Hassapidou (Greece)	Hall G
1615 - 1630	Presentation of JANPA	M Hassapidou (Greece)
1630 - 1645	How to estimate the national costs of childhood obesity?	K Balanda (Ireland)
1645 - 1700	How to collect and treat labelling data to monitor the nutritional quality of the food offer?	K Vin (France)

1700 - 1715	sing JANPA Toolbox to create healthier environments in schools	V Kovacs (Hungary)
1715 - 1730	Supporting the healthy start – early interventions in practice	H Kuusipalo (Finland)
1730 - 1745	Recommendations from JANPA to improve European and national actions on childhood obesity	A Spinelli (Italy)
1615 - 1745	Innovative approaches to improving health in low income areas Chairs:	Hall K1
1615 - 1645	Diatrofi: Program on food aid and promotion of healthy nutrition	TBC
1645 - 1715	The 'Can Cook' intervention	R Davison (UK)
1715 - 1745	School based intervention in low income communities	L-L Schafer Elinder (Sweden)
1615 - 1745	Oral Session: Lifecourse effects of childhood obesity Chairs:	Hall K2
1615 - 1630	Higher body mass index (BMI) and overweight/obesity in children with intrauterine smoke exposure	F Falahi (Netherlands)
1630 - 1645	Combined effects of smoking during pregnancy, maternal and child genetic profile on childhood overweight	C S Morgen (Denmark)
1645 - 1700	Association of bright liver with I148M variant of the PNPLA3 gene in healthy toddlers	M Manco (Italy)
1700 - 1715	Childhood body mass index and risk of intracerebral hemorrhage among women and men	L K Gjørde (Denmark)
1715 - 1730	BMI change during puberty and the risk of heart failure	J Kindblom (Sweden)
1730 - 1745	BMI at 8 years of age is associated with the risk of colon cancer	J Céline (Sweden)

1745 - 1915	Accepted Symposia and Chaired Poster Sessions
--------------------	--

1745 - 1915	Accepted Symposium: Physiology of obesity - from mechanisms to medicine Chair: P Aldiss (UK), J Lewis (UK)	Hall K1
1745 - 1815	Brown Adipose Tissue: The Body's Own Mechanism to Combat Obesity. Mariette Boon, Leiden.	M Boon (Netherlands)
1815 - 1835	The Mitochondrial Lipid Cardiolipin Governs Systemic Energy Homeostasis Through Thermogenic Fat.	E Sustarsic (Denmark)
1835 - 1855	Too hot to eat? A brown fat mediated gut-brain circuit regulates satiation	Y Li (Germany)
1855 - 1915	No macrophage infiltration into brown and brite/beige adipose tissues during cold-induced recruitment	N Boulet (France)
1745 - 1915	Posters Networking Reception/EASO COMs Reception Poster Tracks TBC	Poster Exhibition

Time	Saturday 26 May 2018
-------------	-----------------------------

0830 - 0915	Plenary Session
--------------------	------------------------

0830 - 0915	The Pink Adipocyte Chairs:	Hall D S Cinti (Italy)
-------------	--------------------------------------	----------------------------------

0915 - 0945	ECO2018 Closing Ceremony
--------------------	---------------------------------

ECO2018 Closing Ceremony and Award Presentations Chairs: B Ludvik (Austria), N Farpour-Lambert (Switzerland)	Hall D
ECO2018 Poster Prize Winners	

1000 - 1130	Oral Sessions
--------------------	----------------------

1000 - 1130	Obesity and Reproductive Health Chairs:	Hall D
1000 - 1030	Obesity and female reproduction	R Pasquali (Italy)
1030 - 1100	Obesity and male reproduction	I Huhtaniemi (UK)
1100 - 1130	Obesity and pregnancy: Obstetrical challenges and opportunities for intervention	B Martinez de Tejada (Switz)

1000 - 1130	EASO Debate Session What is the current state of childhood obesity management? Chairs:	Hall G
1000-1015	Treating the ticking time bomb: childhood obesity	L Ellis (UK)
1045-1100	Behavioural therapy; lessons from the US and Europe	A Browne (US), JC Holm (Denmark)
1100-1115	Pharmacology in childhood obesity management	A Kelly (US)
1115-1130	Surgery in adolescents: the need for consensus	B White (UK), T Olbers (Sweden)
	Debate	Panel

1000 - 1130	Accepted Symposium: Hunger, dieting and cognitive control of food intake Chair: R Adan (Netherlands), S Dickson (Sweden)	Hall K1
1000 - 1015	Interactions between metabolic, reward and cognitive processes in appetite control	S Higgs (UK)
1015 - 1030	Decreased leptin signaling during dieting and its role in neural circuits regulating thermogenesis and food reward	R Adan (Netherlands)
1030 - 1045	Influence of food intake, and altered appetitive gut hormone signalling, on human reward processing and addictive behaviours	T Goldstone (UK)
1045 - 1100	Central administration of ghrelin induces conditioned avoidance in rodents	S Dickson (Sweden)
1100 - 1115	Understanding the role of dietary fibre and short chain fatty acids in central appetite regulation	G Frost (UK)
1115 - 1130	Discussion	

1000 - 1130	Teaching Session: Public health interventions: how to set them up and keep them going Chairs:	Hall K2
1000 - 1030	Obeosgenic environments and INFORMAS	T Lobstein (UK)
1030 - 1100	Lessons from taxation in hungary: the need for ongoing political support	E Martos (Hungary)
1100 - 1130	SIPCAN: how was it established?	F Hoppichler (Austria)

1130 - 1200	Brunch
--------------------	---------------

1200 - 1330	Review/Oral Sessions
--------------------	-----------------------------

1200 - 1330	Oral Session: Obesity trajectories in children Chairs:	Hall D
1200 - 1215	Novel methods for simulating BMI and obesity trajectories during childhood: a life course model from Australia	A Hayes (Australia)
1215 - 1230	Prevention of obesity in toddlers: the PROBIT trial	A Morandi (Italy)
1230 - 1245	Childhood BMI is inversely associated with pubertal timing in normal weight, but not in overweight boys	M Bygdell (Sweden)
1245 - 1300	Median BMI as a stable reference point for establishing BMI thresholds in childhood	C M Wright (UK)
1300 - 1315	Maintenance Interventions in Overweight or Obese Children: a Systematic Review and Meta-Analysis	L B Van Der Heijden (Netherlands)
1315 - 1330	Utility values for childhood obesity interventions: a systematic review and meta-analysis of the evidence for use in economic evaluation	V Brown (Australia)

1200 - 1330	Oral Session: Policy in action Chairs:	Hall G
1200 - 1215	How do local authorities in England tackle the wider determinants of health surrounding obesity?	J Nobles (UK)
1215 - 1230	Future trends in morbid obesity in Scotland, Wales and England	L Keaver (Ireland)
1230 - 1245	Moving towards consensus on weight bias reduction messages and strategies	X Ramos Salas (Canada)
1245 - 1300	Health-related costs in a sample of premenopausal non-diabetic overweight and obese females in Antwerp region – a cost-of-illness analysis.	W Hens (Belgium)
1300 - 1315	Minimum Nutritional Standards for Catering for Staff and Visitors in Health and Social Care, for staff and visitors across all catering, retail and vending facilities.	J Casey (UK)
1315 - 1330	A scoping review and systematic mapping of existing health interventions, including those with a focus on obesity, in Islamic religious settings in the UK	C D Summerbell (UK)
1200 - 1330	Oral Session: Glucose and lipid homeostasis Chairs:	Hall K1
1200 - 1215	An unique phenotype found in obese mice exposed to hypoxia: amelioration of hyperglycaemia despite worsening of insulin resistance	C Fürsinn (Austria)
1215 - 1230	Enhanced metabolic flexibility to glucose excess is accompanied by impaired metabolic flexibility to glucose deprivation in healthy young males	J E Galgani (Chile)
1230 - 1245	The effect of long term Arabinoxylan-oligosaccharide supplementation on gastrointestinal functioning and metabolic parameters: A randomized controlled trial	M Müller (Netherlands)
1245 - 1300	Effects of Different Metabolic States and Surgical Models on Glucose Metabolism and Secretion of Ileal L-Cell Peptides: Results from the HIPER-1 Study	S Pouwels (Netherlands)
1300 - 1315	Hepatic CB1 Receptor Regulates Soluble Leptin Receptor Levels and Promotes Obesity-induced Leptin Resistance	A Drori (Israel)
1315 - 1330	Epigenetic regulation of skeletal muscle metabolism after bariatric surgery in humans	S Gancheva (Germany)
1200 - 1330	Accepted Symposium: Self-regulation and emotion regulation in weight loss maintenance – working towards a consensus: The H2020 NoHoW Project Chairs: B Heitmann (Denmark), J Stubbs (UK)	Hall K2
1200 - 1230	Conceptual background and theoretical basis for the NoHoW project.	J Stubbs (UK)
1230 - 1330	Self-regulation of food intake among shorter- and long-term weight loss maintainers: qualitative findings.	S Pedersen (Denmark)
	Findings of a 12-month observational longitudinal study of self-regulation and emotion regulation in a cohort of 2000 weight loss maintainers participating in a community based weight management programme	E Evans (UK)
	Weight loss history, emotion regulation and self-regulation as correlates of clinically significant weight loss in 1600 European adults across 3 countries- baseline results of the NoHoW trial	E Huseinovic (Denmark) and C Duarte (Portugal)
	Towards a consensus on developing the next generation of WLM interventions Discussion	M M Marques (UK)
